# ***Ruggedized Option Computer Kit (ROCK)***

***A solid solution for your shipboard needs that can withstand both the environment and obsolescence***

**The ROCK offers:**

- **Adaptability**—can accommodate any computer configuration, now or in the future
- **Longevity**—designed to survive harsh conditions and meet military specifications for shock and vibration
- **Reliability**—hot-swappable power supplies enhance reliability for mission-critical systems
- **Cost Savings**—a truly universal computer designed for repeated reconfiguration of processors and peripherals reusing the same enclosure

***The GOTS Solution for Your COTS  
Implementation***
