

Joint Warrior Interoperability Demonstration 2004

RADM Kenneth Slaght invites you to JWID 2004. This is the U.S. Chairman of the Joint Chiefs of Staff annual event that enables combatant commanders, national civil authorities and the international community to investigate command and control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR) solutions that focus on relevant and timely objectives for enhancing coalition interoperability and exploring new partnerships. United States Northern Command (USNORTHCOM) is the host combatant command for JWID 2004. Consequently, the scenario for JWID 2004 will incorporate aspects of HLS/HLD in addition to traditional coalition operations. The intent is to conduct trials of C4ISR capabilities during JWID that can then be moved into operational use in the near term. SPAWAR HQ and SSC San Diego are proud to serve as the U.S. Navy site for JWID for the sixth consecutive year and showcase the finest in innovative and technological solutions.

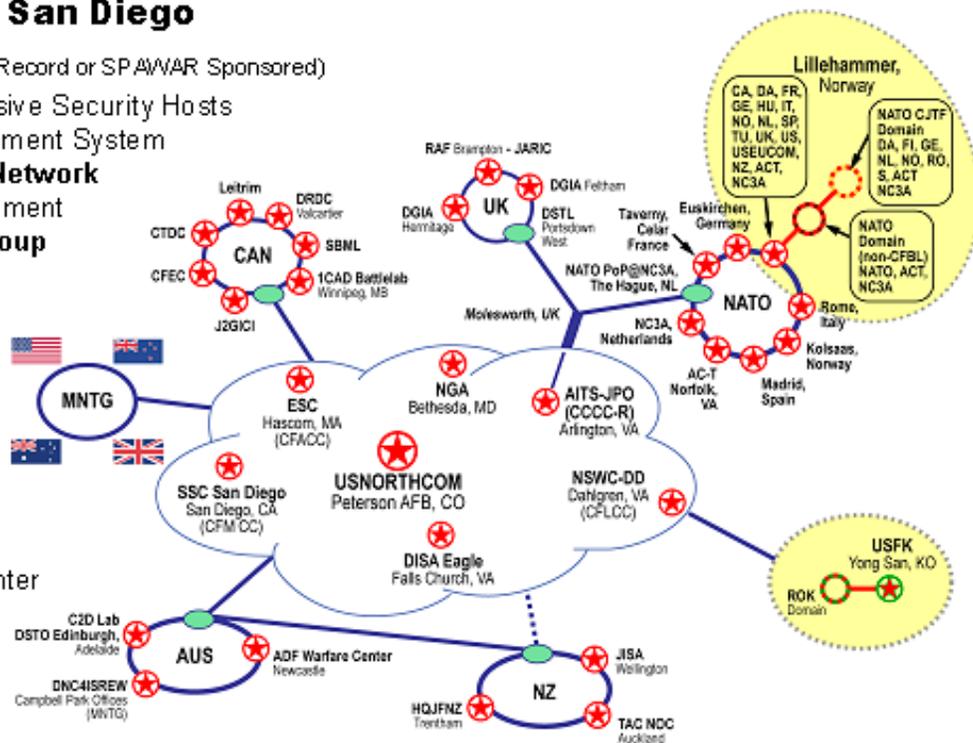

Coalition Interoperability, the 21st Century Warfighter's Environment

Trials Participating at San Diego

(**BOLD** signifies SPAWAR Program of Record or SPAWAR Sponsored)

- Suite of Operationally Inexpensive Security Hosts
- Integrated Information Management System
- **Joint Protection Enterprise Network**
- Enterprise Knowledge Management
- **Multi-national Naval Task Group**
- Baseline Tool Kit
- **NetTop**
- **NetScreen**
- NetScout
- **SearchBox**
- **SkyCap**
- CIA Cop
- **TopSpin**
- Portal-to-Portal Interoperability
- Multi-Domain Role Control Center
- Interop Express
- The Globe Suite of Tools
- Interactive Link Diode
- Identity-Based Security
- Secure Methods SM1000 Gateway
- German Multi-National Intelligence

Organizations Participating at SPAWAR

- SSC San Diego
- AUSCANNZUKUS
- DISA
- NGA
- NSA
- Rome Labs
- DARPA
- MITRE
